

RP702 Single Progress Capture Pulley (non-locking)**Data Sheet**

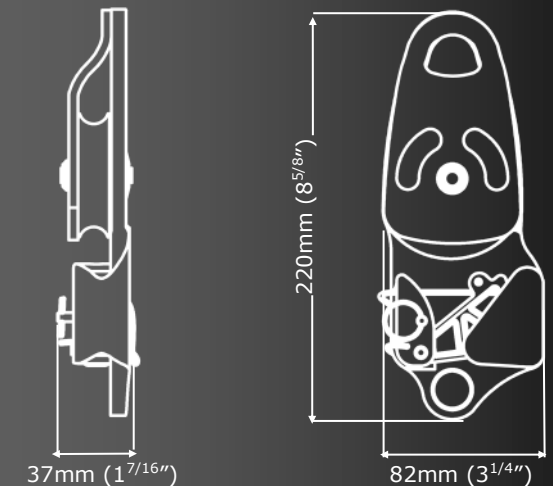

climb. work. rescue.

I|S|C

SOLUTIONS IN METAL

The ISC Progress Capture Pulleys feature a new lightweight centre plate, re-positioned wheel to reduce rope friction and a rated Becket, through which even a ANSI Karabiner can be fully rotated.

The RP702 is fitted with tamper-proof rivets and is individually serial numbered. The cam-face is coned to minimise rope wear.

Weight	663g (23oz)
Body Material	Aluminium
Finish	Anodised
Rope Size	10-13mm (3/8-1/2")
MBS	40kN (8992 lbf)
Standards	CE EN12278 (2007) EN 567:97 NFPA (1983)
